Construction Material: Stainless Steel & Linen
Weight: 3.15kg

SAFETY INSTRUCTIONS

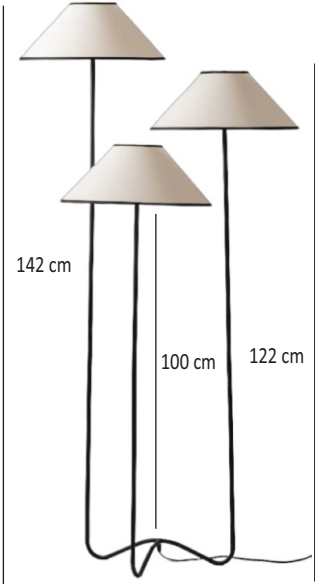

At East Wing Studio, we believe your safety is paramount and should not be compromised in any way. That's why we recommend the following safety precautions.

- To reduce the risk of fire, electrical shock, or personal injury, always switch your lamp off and unplug it to allow it to cool down completely before replacing the bulb.
- Keep it away from flammable materials and water.
- Do not touch or look directly at the bulb when the fixture is turned on.
- This lamp is an electrical device, not a toy; keep children away from it at all times.

CARE & CLEANING

You should periodically clean the Trio Lamp using a mild non-abrasive cleaner and a soft cloth. When cleaning, ensure you have turned off and unplugged the unit, allowing sufficient time to cool. All liquids should be properly dried before restoring power.

ASSEMBLY INSTRUCTIONS

Your Trio lamp will arrive in two boxes (lamp base + shade), remove all parts.

- Put the lamp base on a stable surface.
- Connect (A1 + A2, B1 + B2) & then (C1 + C2, D1 + D2, E1 + E2). Be sure to secure each point tightly.
- Tightly screw the E-27 holder on each arm and separate the ring placing the lampshade on top before tightening.
- Firmly hold the base and twist the bulb into the socket.
- Connect AC power 120V – 230V plug into your electrical outlet.
